Fly into the World

Wings Promotion  
Video

✓ Interactive smart learning program for preschool children.

Wings conduct classes using a **smart board** and **pad**.

✓ Experiencing joyful communication is essential for language learning.

Wings provides an **interactive learning environment** taking into account the linguistic development, psychology, creativity, and social development of children, in order to help develop **all of the four areas** (listening, speaking, reading, writing) **in** language learning.

✓ The purpose of language learning is communication.

Wings induce **interaction** and **focus** of all children and help them **communicate** with the teacher and among themselves.

01 100% class interaction by using digital learning tools

02 Educational content tailored for each developmental stage

03 Learning through collaboration with friends

04 Maximized learning effects through interaction

## Digital Class Environment

### Smart Board

Screen  
Sharing

PC

Access Point

### Tablet PC

Internal  
Network

## Digital Content

Learn English through content customized for each developmental stage and characteristics of the children.

### Learn Words

Learn vocabulary through interactive activities with the teacher

### Learn Sentences

Learn sentences through interactive activities with the teacher

### Song Animation

Sing and dance while watching a 3D animation

### Phonics Activity
